

# BCG VISION 2018

## JOIN US IN STOCKHOLM

Be part of BCG Vision. This three day workshop will give you the opportunity to improve your skills in the fields of analysis, creative problem solving and interviewing, through training sessions, coaching advice, and casework.

### THE CASE

Together with a diverse group of highly motivated university students, and guided by a team of BCG consultants, you will be designing digital solutions and using sound analysis to tackle one of healthcare's biggest challenges.

Be prepared for an agenda that is not only designed to challenge your personal and professional skills, but also allows for enough time to experience Stockholm and get to know life, culture and the people at BCG.

### WHEN

May 2–4, 2018

### HOW TO APPLY

This workshop is open to university students (undergraduates, Master's, or PhDs) in their fifth semester or higher with an affinity or curiosity for all things analytical. We also require an outstanding academic track record, completed internships as well as experience abroad.

Do you envision yourself on a plane with us to Stockholm? Then don't hesitate, apply by April 8 at [www.bcg.ch/vision2018](http://www.bcg.ch/vision2018)
